Experience

City Bank

Assistant Officer - Information Technology
May 2025 - Present (1 year 7 months)
Dhaka, Bangladesh

Data Center & Infrastructure Operations

• Ensure smooth operation of the Data Center (DC) and Near Data Center (NDC) to maintain high availability of critical banking services.
• Monitor servers, storage systems, network connectivity, system logs, and infrastructure performance.
• Maintain 24/7 operational coverage through roster duty and continuous system monitoring.

Banking Systems & Payment Operations

• Perform day-end operations for core banking, card processing, and switching systems.
• Monitor incoming and outgoing payment transactions across VISA, Mastercard, American Express (AMEX), and China UnionPay (CUP).
• Execute VISA CYBS and DCF files and generate scheduled CMS cycle XML statements through SMS and email.
• Monitor Citytouch++ services, transaction processing, daily Data Warehouse activities, and INAC POS transactions.
• Monitor MFS and NPSB transactions through SkyGuard.

System Monitoring & Incident Management

• Provide first-line technical support to identify, troubleshoot, and resolve operational issues.
• Escalate critical incidents to second-line support and coordinate with local and international vendors for resolution.
• Manage Citytouch++ service stoppages, restarts, and process monitoring to maintain service availability.

Security, Backup & Compliance
• Maintain IT security standards and operational controls across DC and NDC environments.
• Support Disaster Recovery (DR), and preventive maintenance activities.
• Ensure compliance with regulatory requirements, internal policies, and audit standards.
• Prepare technical documentation and reports to support audit and compliance requirements.

IT Service Management & Collaboration
• Support IT Service Desk operations, incident management, system monitoring, and performance management.
• Coordinate with internal departments, system administrators, application teams, and vendors to resolve technical issues.

Daraz
IT Associate
February 2025 - May 2025 (4 months)
Banani, Dhaka, Bangladesh

Responsible for IT asset verification, tracking, and compliance. Conduct physical audits, update records, and identify discrepancies to ensure accurate asset management.

Asset Verification & Tracking
• Conduct physical verification of IT assets, including computers, networking devices, and peripherals.
• Cross-check asset details with records and identify any missing or unregistered assets.

Data Management & Compliance
• Maintain accurate records of serial numbers, locations, and assigned users.
• Ensure compliance with company policies and IT security guidelines.

• Generate audit reports highlighting inconsistencies and recommendations.

Collaboration & Process Improvement

• Work with cross-functional teams to streamline asset tracking.

• Assist in asset tagging and reconciliation to enhance inventory accuracy.

• Support IT equipment handling, storage, and inventory management

Committed to accuracy, efficiency, and seamless IT asset management.
